

TK 114 / TK 112

MULTINEEDLE BORDER TACK STITCH MACHINE

The border machines TK114 and TK112 automatically spot tack mattress borders in various patterns.

TK 114 / TK 112

MACHINE FEATURES:

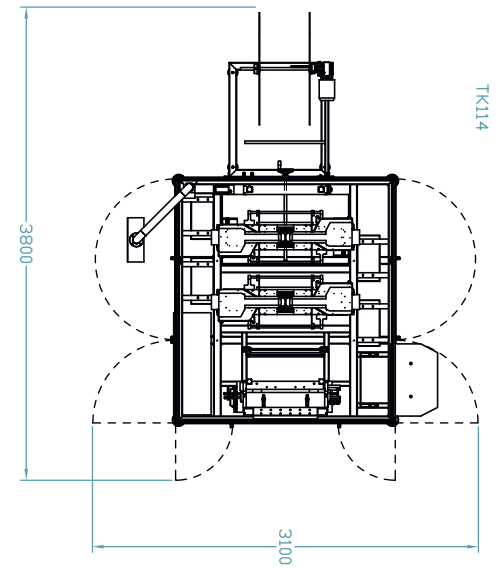

TK114

- **4 lockstitch sewing heads;**
- Thread trimmer, automatic thread break detector.

TK112

- **2 lockstitch sewing heads;**
- Thread trimmer, automatic thread break detector.

- Touch screen interface;
- **1 Teknomac multineedle:** chainstitch, automatic up/down thread detector, automatic thread break detector, sewing width 500 mm, needle space 6,4 mm, 2000 stitches/min, moving presser foot, adjustable stitch from 2 to 5 mm;
- 1 feed roller;
- Roll holders with material run out stop devices and wind up;
- Within machine sewing field, stitch patterns can be created for tack stitches, circles, squares and rectangles.
- Can apply 3D fabric, tapes and zippers; requires fabricating special guides for each.

Both machines TK 114 and TK 112 are also available without Multineedle head (this version won't allow the application of 3D, zips and tapes).

Yield:

TK114: 1 to 5 meters/minute depending on stitch pattern

TK112: 1 to 3 meters/minute depending on stitch pattern
